
Technical Data Sheet (TDS)

Sulphur Black

CAS No.: 1326-82-5

Chemical Formula: C₆H₄N₂O₅

H.S. Code: 3204191100

Appearance: black powder

Packing: 25kgs PP bag, 20MT per 1*20FCL

Application: Mainly used for dyeing and winding dyeing on cotton, jute, viscose, polyvinyl alcohol fibre and polyester, polyamide fibre, especially used for rolling dyeing. It is uniform and stable in colour, good permeability when dyeing without any fragile treatment. It is also used for dyeing on leather and original viscose fibre etc.

Main Data:

Item	Index
Strength	220% min
Shade	corresponding to standard
Moisture	5.0% max
Insoluble matter in sodium sulphide	0.5% max
Free sulphur content	0.5% max
